

# Dandelions

*by Regie Routman*

APRIL 19, 2020

The world looks different to me now  
Take for example  
A dandelion

I used to think  
A dandelion was just a weed  
But now  
I also think  
It's a lovely flower

Once I really LOOKED at dandelions  
Got down low and really saw them  
I began to think of those yellow weeds  
In a different way

Sunshine in a dreary world  
Greens that could be superfoods  
In glorious and delicious salads  
Flowers that I could pick  
and place in a vase to give me comfort

So it is these days,  
Everything looks a bit different  
The trick is, I think  
To look closely, in new ways  
And find pieces of joy wherever we can.
